

**ATENOR**  
ACTING FOR CITIES

**HALF-YEAR  
RESULTS  
2018**

La Hulpe, 30 August 2018

“ We close the first half of the year with a consolidated net result of **5.64** million Euro. This result comes mainly from the margins on the pre-sold projects, both in office and in residential.

The diversification of the portfolio, which includes **18** projects spread over **11** cities and **6** countries, allows us to take full advantage of the health of the European property market.

ATENOR will specify during the second half of the year, according to the evolution of the portfolio, the forecast results of the exercise, which appear to be (at this stage) comparable to the 2017 results. ”

Stéphan Sonnevile s.a.  
Managing Director

Consolidated net result (group share):

**€ 5.64 M.**

Number of projects in development:

**18**
